

# ENHANCE SUSTAINABLE MEASURES IN SPORTS FACILITIES

The traditional model of sports facilities is being challenged due to its environmental impact and vulnerability to climate change. The ESMIS project aims to pioneer a new era of sustainable sports facilities across Europe.

Our goal is to empower sports facilities to adopt sustainable practices, driving positive change in the sports sector. We do this by creating a digital platform with best practices of innovative sustainability solutions for sports facilities from all over Europe. The platform will serve as a source of inspiration and exchange of experience to ensure good examples are replicated in sport facilities in different European countries.

## ESMIS

ENHANCE SUSTAINABLE MEASURES  
IN SPORTS FACILITIES

Co-funded by  
the European Union

## Get Involved!

Follow us on social  
media for the latest  
updates and events

### Platform with Best Practices

A map of innovative sustainability solutions  
for sports facilities from all over Europe

### Workshops

Dedicated events to help sport facilities  
tackle challenges in sustainability

### Toolkit for Sport Facilities

Provide sport facilities with tools for  
sustainable practices

### Sustainability Matchmaking

Implement and test a toolkit for sustainable  
practices. Conduct webinars and seminars.
